REMARKS / DISCUSSION OF ISSUES

The present response to the Office Action under Ex parte Quayle is believed to place the application in condition for allowance.

Applicants gratefully note the acknowledgement of the claim of priority and the receipt of all certified copies of priority documents.

Applicants respectfully request approval of the drawings.

Objection to the Specification

Applicants submit a new Abstract herewith. Applicants believe that the Abstract from the PCT priority document is in the file for consideration. If so, this should be deleted in favor of the enclosed new Abstract.

Applicants thank the Examiner for providing information about recommended section headings. However, Applicants respectfully decline to add the headings. Section headings are not statutorily required for filing a non-provisional patent application under 35 USC § 111(a), but per 37 CFR § 1.51(d) are only guidelines that are suggested for applicant's use. (See "Miscellaneous Changes in Patent Practice, Response to comments 17 and 18" (Official Gazette, August 13, 1996) [Docket No: 950620162-6014-02] RIN 0651-AA75 ("Section 1.77 is permissive rather than mandatory. ... [T]he Office will not require any application to comply with the format set forth in 1.77"). (See also MPEP § 608.01(a)).

Conclusion

In view of the foregoing, applicant(s) respectfully request(s) that the Examiner withdraw the objection(s) and/or rejection(s) of record, allow all the pending claims, and find the application in condition for allowance.

If necessary, the Commissioner is hereby authorized in this, concurrent, and further replies to charge payment or credit any overpayment to Deposit Account Number
